

DOWNLOADING AND INSTALLING MT4

Step 1

Click on the Download button upon registering for a demo or on the link sent to you by email after you have opened and funded an account.

Step 2

Click on Save File on the download window that pops up.

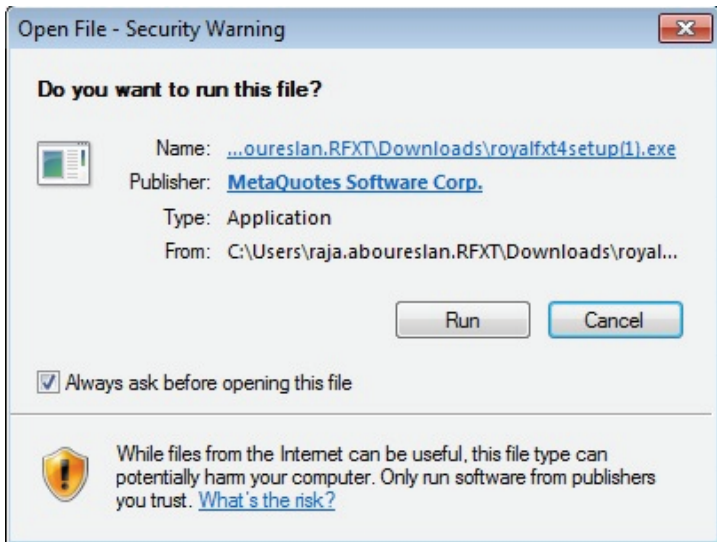

Step 3

Click on the downloaded installation file.

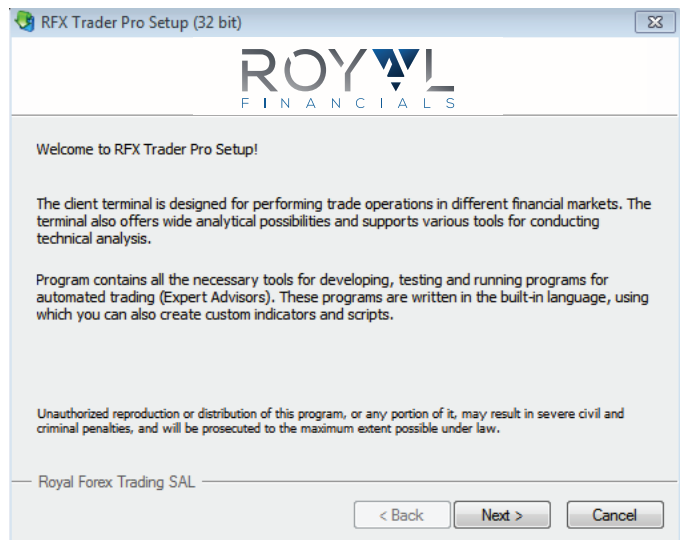

Step 4

Click on the Run button.

Step 5

Click on Next and read the terms and conditions.

If you agree, check the box next to "Yes, I agree with all terms of this license agreement".

DOWNLOADING AND INSTALLING MT4

Specify the folder where you would like to install the platform as well as whether to create a shortcut and to launch the program immediately after installing it.

When ready, click Next and the platform should begin downloading files as well as creating the folders and installing the software.

Select the destination folder where you want to install RFX Trader Pro. To install to a different location, click Browse, and select another folder.

Installation folder:

Select the Start Menu program group in which you would like Setup to create the shortcuts.

Program group:

Select the additional tasks you would like Setup to perform while installing.

Create a desktop shortcut

Launch program after successful installation

Step 6

Once done, click on Finish and the platform should start automatically.
